

Strategic Solutions Overview

Since 2009, The Diocesan Investment Trust of New York ("DIT") has been managed by the Commonfund Strategic Solutions Group. This comprehensive investment management program provides investment management advisory, and middle office services to clients. It is a collaborative approach, encompassing all aspects of portfolio management, including investment policy review, portfolio construction, total portfolio monitoring, rebalancing, risk management and reporting.

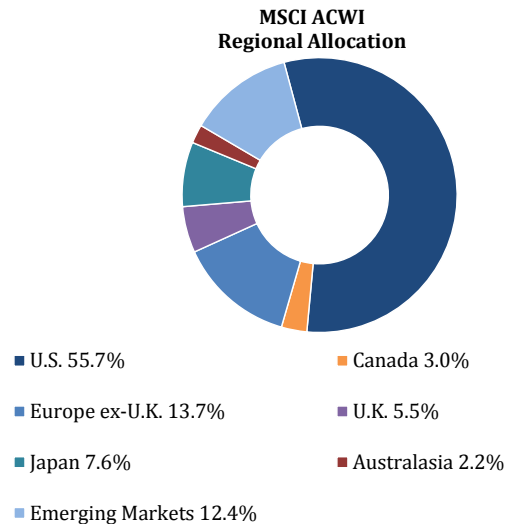

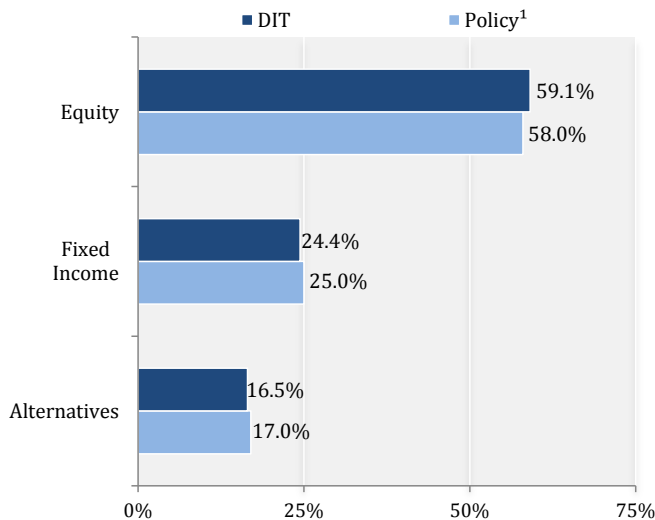

Commonfund Strategic Solutions® brings together the accumulated best thinking and investment management practices of Commonfund. The Strategic Solutions program is designed exclusively for nonprofit institutions that seek to improve all aspects of the management of their portfolios – providing guidance where needed in policy formulation, while focusing support on the resource-intensive implementation and execution of investment policies. Our dedicated professionals work with each client to design, tailor and implement an investment program that meets their specific needs. In doing so, Strategic Solutions helps to strengthen the fiduciary role of a client’s Trustees by providing Investment Committee members the time to focus on strategic policy issues. The program is designed to serve as an extension of a client’s investment staff and Investment Committee (not a replacement of), and as a resource to the institution’s Trustees.

The main objective of DIT is to achieve growth in principal value (spending) over time sufficient to preserve or increase purchasing power, thus protecting against inflation. DIT invests in a diversified portfolio of strategies inclusive of traditional and non-traditional (alternative) investments through a diversified manager approach.

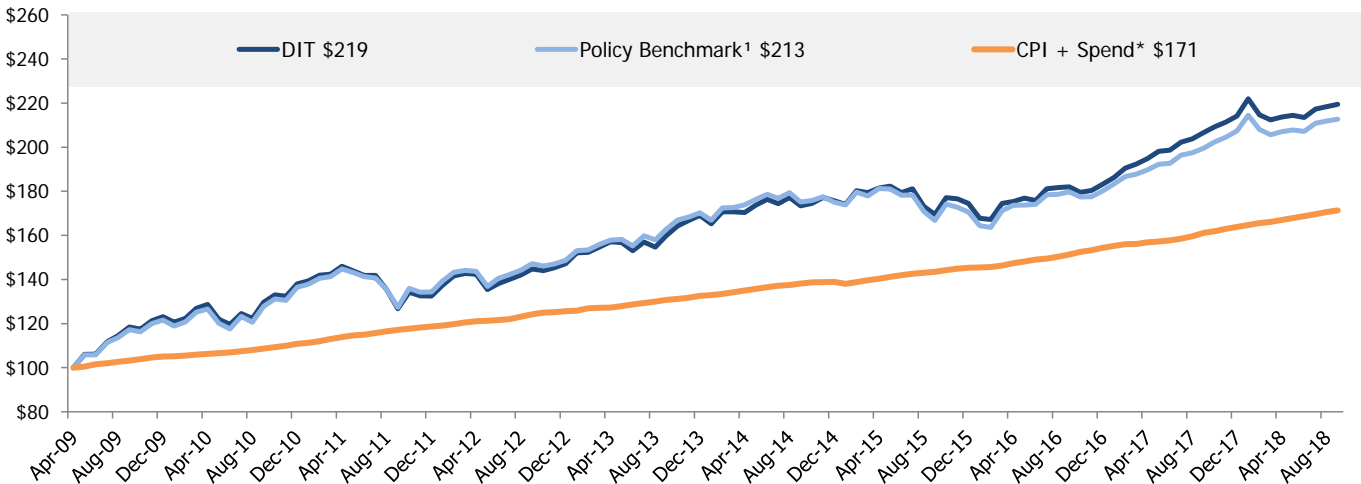

Similar to DIT, Commonfund is a signatory to the Principles for Responsible Investment (PRI). As such, Commonfund affirms its corporate commitment to the importance of environmental, social and governance investment issues. Oversight is maintained by Commonfund’s Board of Trustees and CEO to monitor investment strategy and implementation to ensure compliance with Commonfund’s ESG Policy and adherence to the PRI’s six Principles. Please see www.commonfund.org and <https://www.unpri.org>.

As of September 30, 2018 Strategic Solutions managed approximately \$8.9 billion for 57 nonprofit clients.

Asset Allocation Detail | As of September 30, 2018

Cumulative Performance (Growth of \$100) | 4/30/09 - 9/30/2018

Past performance is not indicative of future results. Unless otherwise indicated returns are net of all fees and expenses and reflect reinvestment of earnings.

OTD Performance Drivers as of September 2018
Positives

- + Strategic Solutions Global Equity Fund (+4.3%) outperformed the MSCI ACWI by 6 basis points for the quarter. Active U.S. strategies were led by Two Sigma whose stock selection in the consumer discretionary sector contributed positively to fund attribution (positions in Lowe's, Amazon, and Lululemon).
- + GAAC (+1.3%), the uncorrelated low-beta hedge fund strategy, outperformed the HFRI FoF Conservative Index by 50 basis points. The top contributor to performance was Blue Diamond, a volatility risk premia manager, whose relative value trading along the VIX futures curve versus S&P hedges was profitable during the quarter.

Commonfund Portfolio Positioning

- **Equities (Overweight):** overweight 1%; neutral regional weights relative to MSCI ACWI
- **Fixed Income (Neutral):** underweight duration and Treasuries; overweight corporates and mortgages
- **Alternatives (Neutral):** neutral real assets and hedge fund strategies

Performance Summary

Fiscal Years (December 31)	DIT Endowment	Policy Benchmark ¹	CPI+Spend*	70/30 ACWI/Agg	Annualized Performance	DIT Endowment	Policy Benchmark ¹	CPI+Spend*	70/30 ACWI/Agg

Risk & Return Summary | 4/30/2009 - 9/30/2018

Definitions
Standard Deviation

Statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution; the larger the standard deviation, the greater the degree of dispersion around the average value.

Sharpe Ratio

Risk-adjusted measure, calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe ratio, the better a fund's historical risk-adjusted performance. Determined according to the following formula: excess return over 91 day T-Bill divided by portfolio's standard deviation. This is an absolute return risk measure. Higher Sharpe ratios are more attractive than lower Sharpe ratios

Spending Policy

*Spend = 1.0% distribution each quarter, which equals approximately 4.06% annually
