

Strategic Solutions Overview

Since 2009, The Diocesan Investment Trust of New York ("DIT") has been managed by the Commonfund Strategic Solutions Group. This comprehensive investment management program provides investment management advisory, and middle office services to clients. It is a collaborative approach, encompassing all aspects of portfolio management, including investment policy review, portfolio construction, total portfolio monitoring, rebalancing, risk management and reporting.

Commonfund Strategic Solutions® brings together the accumulated best thinking and investment management practices of Commonfund. The Strategic Solutions program is designed exclusively for nonprofit institutions that seek to improve all aspects of the management of their portfolios – providing guidance where needed in policy formulation, while focusing support on the resource-intensive implementation and execution of investment policies. Our dedicated professionals work with each client to design, tailor and implement an investment program that meets their specific needs. In doing so, Strategic Solutions helps to strengthen the fiduciary role of a client's Trustees by providing Investment Committee members the time to focus on strategic policy issues. The program is designed to serve as an extension of a client's investment staff and Investment Committee (not a replacement of), and as a resource to the institution's Trustees.

The main objective of DIT is to achieve growth in principal value (spending) over time sufficient to preserve or increase purchasing power, thus protecting against inflation. DIT invests in a diversified portfolio of strategies inclusive of traditional and non-traditional (alternative) investments through a diversified manager approach.

Similar to DIT, Commonfund is a signatory to the Principles for Responsible Investment (PRI). As such, Commonfund affirms its corporate commitment to the importance of environmental, social and governance investment issues. Oversight is maintained by Commonfund's Board of Trustees and CEO to monitor investment strategy and implementation to ensure compliance with Commonfund's ESG Policy and adherence to the PRI's six Principles. Please see www.commonfund.org and <https://www.unpri.org>.

As of June 30, 2019 Strategic Solutions managed approximately \$9 billion for 56 nonprofit clients.

Asset Allocation Detail | As of June 30, 2019

Cumulative Performance (Growth of \$100) | 4/30/09 - 6/30/2019

QTD Performance Drivers as of June 2019

The DIT portfolio (+3.4%) outperformed the policy benchmark (+3.1%) by 30 basis points for the quarter through June.

Positives

- + **Strategic Solutions Global Equity** (+4.3%) outperformed the MSCI ACWI by 70 basis points QTD. All regions were additive, outperforming their respective benchmarks. Top performance drivers included active Europe (+5.8%) and U.S. strategies (+4.8%).
- + **Global Absolute Alpha Company** (+1.9%) outperformed the HFRI FOF Conservative index by 30 basis points, providing an uncorrelated source of return to the portfolio.

Negatives

- The fixed income portfolio (+2.5%) trailed the weighted fixed income composite (+2.6%) by 10 basis points QTD. Though the core bond portfolio (+3.2%) outperformed the Bloomberg Barclays U.S. Aggregate Bond Index (+3.1%), there was a cash drag in the portfolio that led to 60 basis points of underperformance relative to 3-month T-bills. In addition, though Private Credit strategies (+3.0%) outperformed broad high-yield by 50 basis points, policy level underperformance was attributed to private credit trailing the core bonds benchmark (which returned 3.1%), as bond prices rose in the face of lower rates.

Commonfund Portfolio Positioning and Point-of-View*

- **Equities (Neutral):** neutral to regional weights relative to MSCI ACWI
- **Fixed Income (underweight):** slight underweight to duration and Treasuries; overweight corporates and mortgages; underweight core bonds by one percent
- **Alternatives (overweight):** neutral to real assets and overweight hedge fund strategies by one percent

*Commonfund rebalances the portfolio to the point-of-view at quarter-end

Performance Summary

Fiscal Years (December 31)	DIT Endowment	Policy Benchmark ¹	CPI+Spend*	70/30 ACWI/Agg	Annualized Performance	DIT Endowment	Policy Benchmark ¹	CPI+Spend*	70/30 ACWI/Agg

2010	12.16%	12.19%	5.50%	11.31%					

Risk & Return Summary | 4/30/2009 - 6/30/2019

Definitions
Standard Deviation

Statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution; the larger the standard deviation, the greater the degree of dispersion around the average value.

Sharpe Ratio

Risk-adjusted measure, calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe ratio, the better a fund's historical risk-adjusted performance. Determined according to the following formula: excess return over 91 day T-Bill divided by portfolio's standard deviation. This is an absolute return risk measure. Higher Sharpe ratios are more attractive than lower Sharpe ratios

Spending Policy

*Spend = 1.0% distribution each quarter, which equals approximately 4.06% annually
